Brandon Pullen

Highlights of the Festival were many and varied, from the Breaker Event attended by 300 students and the Eid Mubarak event attended by over 100 students, to the airport pickup service, on-campus Welcome Desk, English Assist workshops and weekly social networking and conversation groups. Originally anticipated to be available to students for Semester 1, the program was so successful that it was quickly extended into Semester 2.

This was truly a collaborative effort, with staff coming together from diverse areas of the University, each with the singular goal of providing an exemplary, warm, welcoming and meaningful experience for our international students.

#### A Culture of Impact and Excellence

An award for an academic or professional staff member for exceptional leadership

Professor Corinna Van Den Heuvel

School of Biomedicine, Faculty of Health and Medical Sciences

Corinna is known for her intellect, integrity, and absolute commitment to the ideals of the University and advancement of others. She is supremely passionate about education, and unreservedly committed to our students and their experience. These qualities made her the obvious choice to lead both the Adelaide Medical School and the School of Biomedicine as interim Head of School.

The Academic Integrity team was established as a result of the Organisational Sustainability Program, and since its inception, has demonstrated a level of service excellence, of providing high quality support for academic and student stakeholders, and an exceptional duty of care for the students who are involved in academic integrity investigations. The team's success has been built on their ability to work as partners: partners with academic staff, partners with other professional teams and, importantly, partners with students. Their work is acutely aligned with the University's Values, and has increased the capability and appetite to focus on academic integrity at individual, school, faculty and whole-institution levels
