The term 'lecture' means any education delivery described as a lecture in a course or program outline or in an official timetable issued by the University.

A casual staff member required to deliver a lecture (or equivalent delivery through other than face to face teaching mode) of a specified duration and provide directly associated non-contact duties in the nature of preparation, reasonable contemporaneous marking and student consultation will be paid a rate for each hour of lecture delivered according to the table above, where the first hour is for lecture delivery and the additional hours are for associated non-contact duties. The term 'reasonable contemporaneous marking' means marking that is consequential to, or originates from assignments, work or exams set within a given lecture, tutorial or demonstration but does not include marking of course wide examinations, essays or other assessment tasks.

The hourly rate in a repeat lecture applies to a second or subsequent delivery of substantially the same lecture in the same subject matter within a period of seven (7) days and any marking and student consultation reasonably contemporaneous with it.
