Table2:

BIOCOMPLIANCE GUIDANCE DOCUMENT

INSTITUTIONAL BIOSAFETY COMI

Sterilisation: Refers to any process that removes and kills or deactivates all microorganisms.

This guidance document is supplied to specify requirements under relevant legislation, guidelines and standards relating to the compliant handling of regulated biological materials including but not limited to GMOs, microorganisms and samples/organisms containing these.

Research groups are responsible for the preparation of Safe Operating Procedures (SOPs) and Risk Assessments incorporating these requirements.

IBC Guidance Document	Decontamination using disinfectants	Effective date:	22/08/2023	Version: 1.0
