

Author Publication Affiliation and Acknowledgements Guidelines

PREAMBLE

University of Adelaide researchers are expected to disseminate their research and publish in the best possible outlets. In doing so, they need to ensure their affiliation is correctly listed and that appropriate acknowledgement is given for any support provided in undertaking that research.

WHY THIS IS IMPORTANT?

It supports research impact in terms of quality and/or translation of the research into beneficial outcomes;

It is both good research practice and a requirement of the [Australian Code for the Responsible Conduct of Research](#);

It encourages continuing research funding by relevant bodies and is often required by them;

It ensures the University of Adelaide is recognised in external bibliometric analysis;

It makes a positive impact on the University's rankings and the perceived quality of the research environment provided to the researcher; and

It allows more efficient harvesting of relevant research publications into University systems, and facilitates better capture and re-use of research data for multiple purposes. This includes lodgement in the University's Open Access repository - an external requirement for Australian Research Council and the National Health and Medical Research Council grant and fellowship recipients.

If the research is also part of their role at their employing institution, it would be expected that, where possible, the article would be jointly by-lined with their employing institution and the University of Adelaide.

AUTHOR BY-LINING AND CITATION

By-lining and citations must take into account the following:

Appendix 1: By-line examples

1. <Researcher's Name>, The University of Adelaide, School of Computer Science, Adelaide, South Australia, Australia.
2. <Researcher's Name>, The University of Adelaide, Department of Molecular and Cellular Biology, Research Centre for Infectious Diseases, Adelaide, Australia.
3. <Researcher's Name>, The University of Adelaide, Robinson Research Institute, Adelaide Medical School, University of Adelaide, Adelaide, SA 5005, Australia.
4. <Researcher's Name>, The University of Adelaide, Discipline of Medicine, and Royal Adelaide Hospital, Adelaide, South Australia, Australia
5. <Researcher's Name> is a Research Fellow at The University of Adelaide in the School of Social Sciences, Adelaide, South Australia, Australia.

<Researcher's Name>, Women's and Children's Hospital, Adelaide, South Australia, and an affiliate of The University of Adelaide, School of Medicine, Adelaide, South Australia, Australia.
